

## Prom & Team Packages

Prom and Team Package prints are for group activities such as sports teams, little leagues, dance schools, proms and undergrads up to age 11. **This is a print-only line. No additional services are available.**

Please note the following requirements:

- All exposures for Prom & Team Package printing must be consistent, all with the same background, all with the same light source, and all at the same distance from the subject, except for the team group photo. **Orders that deviate from normal exposure by more than 2 f-stops over and 1 f-stop under will not be printed.**
- Only half-length or longer poses can be accepted under the Prom & Team line. The lab can determine at its own discretion which poses are acceptable. **Cropping is not available on this line.** Therefore, it is necessary to use care in composing at the time of shooting.
- Prom & Team orders with high key (light) backgrounds are printed dark enough to give detail to the subject.
- All units are shipped uncut.

Prom & Team prices are significantly lower. These prices are possible since orders are averaged-analyzed, and inspection tolerances are not as tight as in our other print lines. Exposures must be consistent to achieve good results.

This line is not meant for ordering portraits. The quality of this line is not as high as our other product lines; however, we invite quality comparison of our Prom & Team service with any other lab.
